ACKNOWLEDGEMENT

We give thanks to God Almighty who has given us guidance, strength, health, and fortitude so that the preparation of this Basic Speaking teaching material has been completed.

This teaching material was prepared with the aim of providing Basic English Learning material for students of 1st semester. The learning assignments are developed with the principles of the Communicative Approach to develop the competence of students in an integrated manner in the four language skills, namely listening, speaking, reading, and writing. In addition, for enrichment and evaluation purposes, each unit is equipped with structured assignments in the form of homework and reviews.

Learning activities are developed to make students speak English actively through activities to understand and use English to express ideas and feelings naturally. In learning, teachers are expected to act as facilitators, provide feedback, and encourage students to use the target language to communicate accurately and acceptably.

The preparation of this textbook was completed with the support of various parties. Therefore, we would like to thank all those who have assisted in the completion of this book. Although we have put together this resource with considerable effort, due to our limitations, this book still has a number of drawbacks. In this regard, we expect input from various parties, especially lecturer and students who use this book, for further improvement.
